Studying Pictures

Conclusions are answers or ideas that you think of because of a clue. *Clues* are hints or pieces of information that help you find out something.

	Conclusions	Clues
What does the map use to show the borders of countries? Canada's land makes it a very large country. Can you find a bigger country?		
In what color group of countries (continent) is Canada? Which country is Canada? What is another country in the light green group?		
Pick a country you think would be too far away from Canada to have any connections to Canada. Find out if it has a connection.		

Critical Question: Canada has many resources and much land to provide for its citizens. Should we be connected to other countries? What kind of connections would be helpful, or even necessary?

2.3.6 Global Connections

- KL-024 Locate Canada on a world map or globe
- KG-031 Identify Canada as one of many countries in the world
- KG-032 Give examples of connections linking Canada to other countries
Examples: food, immigration, media...
- VG-010 Value Canada's global connections
