Artistic Purpose or goal of the project

This project will allow me to expand beyond my usual audio and visual arts background into performance art with the help of my project partners Jane's Performance Troupe. I will incorporate live sculpting, interactive soundmarks, and live performance into a multidisciplinary performance experience. As none of the participants has engaged in this type of art before it will push all our boundaries and allow us all to progress in new ways and capacities as artists.

How will the project be carried out?

We will go through a number of phases in order to carry out this performance. First I will consult with the Yellowknife arts group BAM! to discuss how they undertake a multidisciplinary performance. I have already spoken with them on one occasion and anticipate that this phase will be complete by March 31, 2016. No expenses will be incurred during this stage except my own time, which will be donated in kind. The second phase will involve the design of the performance in collaboration with Jane Performer. This phase will occur via distance video conferencing, email, and phone calls. We have already had some preliminary meetings to discuss ideas and are excited by the prospect of working together. This phase will take from April 1, 2016 to June 30, 2016. The third phase will involve rehearsing and performing the piece. This will take place in Norman Wells and Fort Simpson from August 20 to November 10, with performances on the 10th, 11th, and 12th of November 2016. Rehearsals will take place via distance, with telephone call ins and video conferencing. I have discussed this with several colleagues and they describe the process as being initially challenging, but after the first few rehearsals, it actually works quite well. I will travel to Norman Wells On November 5th for the final week of rehearsals and the performances. We will also simulcast the performance online for anyone to view for free.

Community Impact

Jane and I have both had positive initial responses from our audiences and partners. We anticipate that over 200 people will attend the performances and double that will view the performances online. I will be in contact with BAM! and other artists to discuss the process, challenges, and successes. I will also give artist talks in Norman Wells, Fort Simpson, and Yellowknife at the earliest convenience. This project will help to expand what is artistically available in Fort Simpson and Norman Wells, as well as provide new skills for artists in these areas.

Jane's Performance Troupe – Organization Description

Jane's Performance Troupe is a registered society with the NWT Societies. The board consists of Jane and Tommy Performer, Luis Sveaborg, Dan Willis, and John Smith of Norman Wells. The society has been in existence for 3 years, but the core group of people have been performing together for the past 10 years. The Troupe is involved with the community and regularly partners on different initiatives that are not always performance related. We put on one major performance each year and do workshops in the school with high school students. We are happy to be a part of the community and pushing the boundaries of performance in Norman Wells

Artistic Endeavours

I don't have a lot of experience with exhibits as most of my art has been created for sale. For instance in the past when I have carved something, it has not been for an exhibit, it has been to sell through a gift store or directly. Exhibits are something that is new for me.

Dear Council:

Re: Dex's performance piece

Please accept this letter as support for the project application submitted by Dex Sounder. It is my understanding that Mx. Sounder is applying to Arts Council to assist with a new performance piece in association with Jane's Performance Troupe of Norman Wells.

I have known Dex for 15 years and have worked with them on several projects in the past. The quality of Dex's work is very high, and they are always pushing the envelope to create something new and exciting. Dex's artworks are usually well received by audiences and this project deserves your financial support.

Dex is an important part of the northern Arts community and any investment you make in this project will be money well spent.

Again, please accept my support for this project.

Thank you

To Whom It May Concern:

I support Dex Sounder's application for funding from the NWT Arts Council.

Dex has been involved in the arts community in Fort Simpson for many years and has shown their dedication to their art. Dex has given free admission to their paid art shows to local school groups and those who would not have otherwise been able to attend. Dex has progressed for many years through a variety of artwork styles, including sculpture and carving. They have worked hard to create works of art that are wonderful to look at and experience.

Dex takes every opportunity to show their passion for the arts. They encourage other artists and all those who interact with them at their installations to explore the arts and get involved in the community.

Yours sincerely,
