What can I expect to do for work if I become a HET - Truck and Transport?

HETs - Truck and Transport maintain, repair and overhaul heavy vehicles and industrial heavy equipment. This may include:

- internal combustion engines and components, both stationary and mobile,
- tracked equipment, commonly called crawler tractors,
- ground engaging equipment and components,
- earth moving equipment,
- off-highway motor vehicles, commonly called trucks,
- towed off-highway vehicles, commonly called trailers,
- interpreting work orders and technical manuals,
- keeping equipment cleaned, lubricated and maintained,
- diagnosing faults or malfunctions,
- adjusting equipment and repair or replace defective parts, components or systems,
- testing repaired equipment for proper performance and ensure that the work done meets manufacturers' specifications and legislated regulations, and
- completing service reports.

What kind of working conditions can I expect?

The working environment for HETs varies considerably from one job to another. Some HETs work in modern laboratories. Others work at construction or industrial sites, sometimes outdoors in all types of weather conditions. Travel requirements and hours of work also vary. There is risk of injury involved in working with heavy equipment and power tools. Proper safety standards are maintained at all times.

Eligibility Requirements

Entrance Exam – Pass Exam 5 with a score of 70% or higher

or

Completion of the following high school courses

- English 20-2 (pass) or Literacy 30 (pass)
- Math 10C (pass)
- Science 10 (pass)

or

All five Canadian General Educational Development (GED) tests

SCHOOLS NORTH APPRENTICESHIP PROGRAM (SNAP) - SNAP apprentices are not required to satisfy the entrance requirements prior to signing an apprenticeship contract. However, the SNAP apprentice must satisfy the entrance requirements or write the TEE before attending technical training.

What are some skills that are valued in this profession?

- good vision, hearing and sense of smell to diagnose problems,
- the strength and stamina required to work with heavy equipment and work in cramped or awkward positions,
- the ability to work and problem solve alone or as part of a team,
- mechanical ability and an interest in all types of machinery and engines, electronics and precision equipment,
- the ability to think logically and keep current with changes in technology, and
- a valid driver's license to operate equipment for testing purposes.

What is the minimum requirement to become an apprentice in this trade?

Apprentices must obtain a minimum of 70% on the Trades Entrance Exam – TEE Category #2 or the equivalent education as outlined below. This must be done before signing the Apprenticeship contract and attending technical training.

How long will it take to complete a HET - Truck and Transport apprenticeship?

An apprenticeship takes about three years to complete and includes three on the job periods and three technical training periods. You need to complete 1800 hours per period, for a total of 5400 hours.

How long is technical training?

Apprentices will attend 720 technical training hours. Apprentices usually do the first two levels at Aurora College in Fort Smith, NT and Alberta for the final level.
